Dear Principal Wheeler,

Thank you for your service to Galion students and the families of Crawford County and Morrow Counties.

Recently it has come to my attention that Galion Intermediate School had/has a student-focused yoga program to help students with attention, emotional and behavior issues.

Please describe this program.

Please also explain if this program occurs during school hours and if parents have given previous permission authorizing their students to participate in this program.

What yoga poses are done during instruction with the students?

I would also like to know more about any other yoga instruction occurring during school hours.

Has the school board authorized this?

Thank you for your time.

Pastor Mike Rose, Hope on the Hill Chapel
